PROJECT NAME : Keen ON!

Today, people do not know themselves very well due to the work intensity or pace, fatigue caused by urbanization. we planned to build this platform to encourage people to hobbies and discover themselves. This platform will be an e-commerce site where people can sell and share their own hobbies. In this way, people can be more patient, productive and they can get rid of their depressive states.

PROJECT SCOPE AND DESCRIPTION

Software Process Model & Team Organization

Our project team is most suitable for democratic decentralized team organization. First of all, although we have a defined leader she/he can be changed if it is necessary. Decision on problems and approach are made by all of the group members. There is no hierarchy among the team members.
